

Sofía Paz Cartagena Castro

Computer Engineer | Full-Stack Developer | GitHub: github.com/socartagena02 | LinkedIn: www.linkedin.com/in/sofía-cartagena-ti | Portfolio: socartagena02.github.io/Mi-portfolio/

PROFESSIONAL PROFILE

Computer engineer specializing in full-stack development with experience building web applications using Django, Django REST Framework, PostgreSQL, Angular, and React Native. I have been involved in the design, development, deployment, and integration of web systems, implementing REST APIs, user authentication, and relational databases. I am interested in digital product development, backend architecture, and scalable solutions.

PROFESSIONAL EXPERIENCE

IT Technical Support - La Paz de la Tarde Geriatric Hospital

Sep 2025 - Nov 2025

- Resolving technical issues for more than 20 users.
- Diagnosing and troubleshooting hardware, network, and software problems.
- Simultaneously managing multiple support requests.
- Applying troubleshooting techniques to efficiently identify and resolve issues.
- Documenting recurring issues and their solutions.

TECHNICAL SKILLS

Frontend

- React Native
- JavaScript
- Angular
- HTML5
- CSS3
- TypeScript

Backend

- Python
- Django
- Django REST Framework
- APIs REST

Database

- PostgreSQL
- MySQL

DevTools

- Git
- GitHub
- Render
- Deployment
- Figma

Others

- Technical documentation
- Testing and Validation
- Troubleshooting

HIGHLIGHTED PROJECTS

Z-STARS AI - Web-based cognitive stimulation platform featuring interactive mini-games.

Technologies: Django, DRF, PostgreSQL, JavaScript, Render, Groq

- I developed a web application for information management and analysis.
- I built REST APIs using the Django REST Framework.

- I modeled and optimized PostgreSQL databases.
- I implemented production deployment and system maintenance.
- I integrated external services via APIs.
- I integrated a classification model to support analytical features.

Demo: <https://zstars-ai.com/>

Repository: github.com/socartagena02/Z-STARS-AI.git

Starsverse - Automated e-commerce website

Technologies: Typescript, Angular

- I implemented authentication and authorization.
- I designed CRUD operations for information management.
- I managed versions using Git and GitHub.

Repository: github.com/socartagena02/Starsverse.git

Gamified Social System (Project in progress)

Technologies: React Native, TypeScript

- A mobile app developed as a team project focused on social interaction through gamification mechanics and user personalization.
- Implementation of authentication screens (login and registration) using React Native and TypeScript.
- Development of the initial navigation structure and user access flow.
- Collaboration via Git and GitHub in a group work environment.
- Participation in the integration of interfaces designed in Figma with application functionalities.
- Project currently in development with new features planned for user profiles and customization elements.

Repository: github.com/socartagena02/Social-gamificada_app.git

EDUCATION

DUOC UC - Sede de Viña del Mar

Computer engineer

Mar 2022 - Dic 2025

CERTIFICATES

- TOEIC English Certification - Nivel B2
- Cybersecurity Awareness Professional Certification (CAPC)

Languages

- English: B2 (TOEIC)
- Spanish: native language
